

The Consuta Trust

Winter News update

Consuta is now in the Cowshed at Beale Park and will probably have been lifted off it's road trailer and blocked up by the time you read this, ready for a major re-varnish and re-paint job early next year.

We have already started the annual winter maintenance tasks, as those who came for the first work party last Wednesday found out. There will be more of these work parties through the winter months, which will be advertised through our email bulletins. If you are not on this grapevine but would like to help, please let me know and I will telephone you with dates as they come up; my tel:- 01488 658795
